PROFILE

I became a dermatologist because I saw how much skin problems affect confidence, especially for young women told to just try another cream. My clinic in Johar Town is calm and unhurried. I explain your skin type, what is causing the problem and a routine with as few products as possible.

AREAS OF CARE

Acne that keeps coming back - A step-by-step plan that treats the cause, not just the spots.

Melasma and pigmentation - Realistic plans for dark patches made worse by our sun.

Eczema in children and adults - Calmer skin through moisturising routines and flare plans.

Hair fall - Blood tests, scalp checks and a plan for thinning hair.
