Sample CV by Navifex Pro - made-up person

PROFILE

Diabetes is one of Pakistan's biggest health problems, and most of the work happens at home, not in my clinic. I teach patients to understand their own numbers. I use modern medicines where they help and I am honest about cost, so your plan works for your budget too.

EXPERIENCE

Consultant Endocrinologist Cantt Diabetes Centre	2016 – now
Senior Registrar, Medicine Canal View Teaching Hospital	2012 – 2016
Resident, Medicine Canal View Teaching Hospital	2009 – 2012

EDUCATION

FCPS Medicine College of Physicians & Surgeons Pakistan	2014
Diploma in Diabetes Sample institute	2013
MBBS Lahore	2008

SKILLS

Type 2 diabetes · Insulin starts · Thyroid disease · Weight management · Diabetes and Ramadan · Gestational diabetes

AREAS OF CARE

Starting insulin - Taking the fear out of injections.

Fasting safely in Ramadan - A pre-Ramadan plan so you can fast with fewer risks.

Thyroid problems - Tiredness, weight and neck swellings, checked properly.

Weight and metabolism - Realistic, steady weight loss that protects your heart and sugar.
